

I find station Air1 an important part of my work day, it brings me peace and comfort when my work day can be very stressful! I love to listen to Air1 on my way to and from work my friends and I love to listen to the "verse of the day"! I think this station is very important to the community and would be a huge loss for the growth and encouragement of moral behavior in our town. Air1 should be put at the top importance of all the radio stations. Thank you. God bless.
